Software Engineer skilled in Java, Spring Boot, React, and modern web technologies, with a strong focus on building scalable and efficient applications. Passionate about writing clean, maintainable code and continuously learning new technologies in a dynamic IT environment.

Professional Training

Full Stack Java Development Trainee

SEED Infotech Ltd, Pune

Pune, India

July 2025 - Present

- Completed 7 months of a structured full stack development program.
- Involved in module-wise assignments, labs, and real-time coding practice.
- Learning Agile workflow, API integration, database operations, and industry-standard SDLC practices.

EDUCATION

B. Tech in Computer Science and Engineering

Rashtrasant Tukadoji Maharaj Nagpur University

Nagpur, India

Dec. 2021 - June 2025

Cumulative Grade Point Average (CGPA): 7.51 / 10.0

HSC(12th) - Maharashtra State Board Percentage: 78%

Year: 2021

SSC(10th) - Maharashtra State Board Percentage: 77%

Year: 2019

Technical Skills

Programming Language : Java, C++

Web Technologies : HTML5, CSS3, JavaScript, TypeScript, Bootstrap

Libraries: React.js

Frameworks : Spring Boot, Hibernate, Angular

Databases : MySQL, Oracle, MongoDB

Tools : Git, GitHub, VS Code, Eclipse IDE

PROJECTS

RIDEVA - Self Drive Vehicle Renting System | [GitHub](#)

- Developed a full-stack vehicle rental platform enabling users to search, book, and manage vehicles with real-time availability tracking.
- Designed and implemented role-based dashboards for Admin, Vehicle Owners, and Users, including booking workflows and vehicle CRUD operations.
- Built RESTful APIs using Spring Boot and integrated Hibernate/JPA for efficient database management.
- Tech Stack: Spring Boot, React.js, MySQL, Hibernate/JPA, REST APIs

PAKKIFY - Handcrafted E-Commerce Platform | [GitHub](#)

- Developed a full-stack e-commerce platform to support artisans and small business owners in showcasing and selling their products online.
- Implemented features including user and seller registration, product listing, shopping cart, and secure checkout process.
- Tech Stack: Spring Boot, Angular, Angular Material, MySQL, TypeScript

Personal - Portfolio Website | [GitHub](#) | [Live](#)

- Designed and developed a responsive portfolio website to showcase projects, skills, and experience.
- Implemented modern UI design with optimized performance.
- Tech Stack: React.js, CSS3, JavaScript

FoodKing - Online Food Ordering System | [GitHub](#) | [Live](#)

- Developed a dynamic frontend food ordering system with client-side state management using Local Storage.
- Optimized user experience through real-time cart updates and responsive UI design.
- Implemented form validation and authentication interface using JavaScript-based logic.
- Tech Stack: HTML5, CSS3, JavaScript, JSON, Local Storage

ACHIEVEMENTS & EXTRA-CURRICULAR

- Actively contributed as a committee head to a college club (BIT-C).
- Participated in coding competitions, demonstrating strong coding skills and the ability to solve complex problems under time constraints.
- Participated in a fashion show during college events, showcasing creativity and confidence.
